

Further, I object to the reckless pace with which SB281 has been rushed to submission. We, the law-abiding citizens of Maryland, will be shouldered with enormous collateral damage resulting from the “drift net” characteristics of this bill. For example:

Searching the Annotated Code of Maryland resources, the 2010 Maryland Code, PUBLIC SAFETY, TITLE 5 - Firearms, Section 5-101 states:

PS 5-101 (h)(1) "Firearm" means:

(i) a weapon that expels, is designed to expel, or may readily be converted to expel a projectile by the action of an explosive;

And from the text of SB281 regarding the definition of “Assault Weapon”:

(E) (1) “COPYCAT WEAPON” MEANS:

(IV) A SEMIAUTOMATIC PISTOL THAT CAN ACCEPT A DETACHABLE MAGAZINE AND HAS ANY OF THE FOLLOWING:

(4) THE CAPACITY TO ACCEPT A DETACHABLE MAGAZINE OUTSIDE THE PISTOL GRIP;

Given the broad stroke of these definitions, the following construction tools will be classified as “copycat assault pistols” under the new definitions:
